

ARAVINDAN R

IT GRADUATE

✉ aravindanr2005@gmail.com ☎ 9543305953 [in](#) LinkedIn [∞](#) GeeksforGeeks [G](#) GitHub [L](#) Leetcode

PROFILE

IT Graduate with a strong foundation in Java, SQL, HTML, CSS, JavaScript, React, networking, and software troubleshooting. Possess excellent communication, analytical, and problem-solving skills with internship experience in software development. Quick learner, adaptable, and eager to contribute to software development, technical support, and customer service roles.

SKILLS

SKILLS AND KNOWLEDGES

- **Operating Systems:** Windows, Linux (Basic)
- **Networking:** TCP/IP, UDP, DNS, DHCP, OSI Model
- **Troubleshooting:** Hardware & Software Support.
- **Programming:** Java, C, Python (Basic)
- **Database:** MySQL (Basic), SQL
- **Web:** HTML, CSS, JavaScript, React.js.
- **Version Control:** Git, GitHub
- **Communication:** Verbal Communication, Teamwork

PROJECTS

High-Accuracy Automatic Code Comment Generation using Generative AI and NLP [🔗](#)

Java, React.js, PostgreSQL, NLP, Bytecode Analysis, Git/GitHub | Jan 2026 – Apr 2026

- Developed an AI-powered web application that automatically generates accurate, context-aware comments for Java source code using NLP and bytecode analysis.
- Implemented the Soot Framework to extract Java bytecode and generate Control Flow Graphs (CFG) for improved code understanding.
- Built a full-stack application using Spring Boot, React.js, and PostgreSQL, enabling users to upload Java files and receive AI-generated comments.
- Deployed the application on Vercel and managed source code using Git/GitHub.

Personalized MCQ Generator Using Gen AI for Adaptive Learning [🔗](#)

Python, Flask, Retrieval-Augmented Generation (RAG), SQLite, Prompt Engineering

- Developed an AI-powered application to generate personalized multiple-choice questions using Retrieval-Augmented Generation (RAG).
- Integrated prompt engineering techniques to improve question relevance, difficulty adaptation, and answer accuracy.
- Implemented SQLite for efficient storage and retrieval of questions, user responses, and assessment data.

Smart Tic-Tac-Toe Game with AI Opponent [🔗](#)

Java, Java Swing, Minimax Algorithm

- Developed a desktop Tic-Tac-Toe game using Java Swing with an interactive graphical user interface.
- Implemented the Minimax Algorithm to create an intelligent AI opponent capable of making optimal moves.
- Applied object-oriented programming principles to develop modular, maintainable, and reusable code.

PROFESSIONAL EXPERIENCE

JAVA DEVELOPMENT INTERN

06/2024 – 07/2024

REJOLA IT SERVICES

- Developed Java-based applications by applying OOPs principles to create modular and maintainable code.
- Identified, debugged, and resolved software issues through systematic testing, improving application reliability and performance.

WEB DEVELOPMENT INTERN

05/2024 – 06/2024

TECHNO HACKS EDU-TECH

- Developed responsive and user-friendly web pages using HTML, CSS, and JavaScript for an improved user experience.
- Enhanced website functionality by implementing UI components and optimizing page responsiveness.

CERTIFICATES

Coursera Courses (8 Courses Completed)

Generative AI by IBM 
Foundational Course on Building with Responsible AI.

AWS Cloud Technical
Technical Overview of Scalable and Secure Cloud Solutions using AWS.

Ux Design Course By Google
Explored UX Design Thinking, User Flows, and Accessibility Standards.

ACHIEVEMENTS

International Conference 12/2025
High-Accuracy Automatic Code Comment Generation using
Generative AI and NLP

NPTEL COURSE  07/2025 – 10/2025
Industrial IOT 4.0 Completed With 82%

ICT ACADEMY  11/2023 – 11/2024
Learnathon 2023 - 2024

EduSkills Foundation  04/2024 – 06/2024
Process Mining Virtual Internship - CELONIS

International Conference In ICT  08/2024
The Role of Artificial Intelligence in the Education Sector

EDUCATION

Bachelor of Technology – Information Technology | CGPA: 8.6 / 10.0 | 2022 – 2026
K.S.R. College of Engineering, Tiruchengode, Tamil Nadu
Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Computer Networks, Operating Systems, Software Engineering, Artificial Intelligence, Machine Learning, Web Development, Cloud Computing.

PUBLICATIONS

PERSONALIZED MCQ GENERATOR FOR ADAPTIVE LEARNING BY USING LEVERAGING RAG METHOD IN GEN AI
Has accepted in 2025 at International Journal of Experiments & Theoretical Artificial Intelligence (IJETAI),
IJETAI_62331, Volume 4, Issue 1
